

VICTOR BELMOR  
... gives recital

## Violin Recital Slated At Local Woman's Club

Violinist Victor Belmor will appear in a recital at the Torrance Woman's Club, 1422 Engracia, Monday, June 19 at 8 p.m. He will play his Cremona violin, made in 1742 by Joseph Guarnerius.

The program will include the famous Trille de Diable by Tartini. The second part of the recital will be devoted to lighter classics and will include short works from outstanding composers.

Belmor began his career at

the age of 9, and by the time he was 15 he had given command performances for the crowned heads of Europe. He was imprisoned by the Nazis in World War II and freed by Allied troops in 1945. He is now an American citizen.

Miss Lois Taylor, formerly of El Camino College, will accompany the violinist.

The public is invited to attend, and those who have not obtained patron tickets may participate in an offering.

## Student Research Program Sponsored by Heart Assn.

The "search for gifted minds" — a program undertaken by the California Heart Assn. to interest young people in a lifetime career in biological research — enters its fifth year this month when 29 outstanding college students begin summer terms in 16 California medical research centers.

In 1957, through their state organization, the 30 county Heart associations in California established the Student Research Associates' program. Since then, 94 students have been selected by the CHA research committee to participate in the summer program, supported by Heart Assn. chapters at a cost of \$53,542.

In 1959, Drs. Kathryn and Clifford B. Cherry of Los Angeles established an annual award to be presented to the outstanding student in the summer research program.

This year's winner is Myrna Stoffel of San Diego, a senior at San Diego College for Women. She was placed last year in the Cardiovascular Research

Institute at University of California Medical Center in San Francisco, and has been selected by the CHA research committee to participate in the program again this summer.

THE HEART association's students research program gives outstanding college students an opportunity to carry out biological investigation under the guidance of leading experienced scientists. The 12-week summer program carries a stipend of \$750 for each student.

Working under some of the leading physiologists, biochemists, anatomists, and clinical investigators of the state, the students have an opportunity to design and conduct their own experiments.

INVESTIGATORS have predicted that more than half of the students participating in the 1961 summer program will go into research as a full-time career.

Selection of the students by a screening committee of CHA is based on a letter of recommendation from the dean of his college, his transcript of grades and a report by a faculty sponsor. All students must maintain at least a "B" average in order to be considered for the program.

## Toastmasters Plan Lecture Series for Men

During the regular meetings held at 6:45 p.m. each Wednesday at Redondo Elks Club, the Southbay No. 280 Toastmasters group has planned a new course of instruction to follow the recently completed speechcraft course. The new series features Dr. Robert Seeman, District Lt. Gov., who will lecture on the fine points of parliamentary procedures as applied to club, committee and business meetings. All men of the Southbay area are invited to attend the entire dinner meeting for which a nominal charge will be made.

It is not necessary to attend the entire series of lectures to benefit as they are programmed so that each lecture stands on its own. All who attend will be given the opportunity to join the group on a membership basis if they desire.

At last week's meeting, Dr. Seeman covered the order of precedence of various types of motions. Following his lecture, Toastmasters James Coyle, Nate Gibson, Lee Geier and James Hurley competed for trophies in the weekly speech contest. Messrs. Coyle and Hurley placed first and second respectively. Winner of the extemporaneous table topic awards new member Don Edwards.

## Name Editors Of Yearbook

Bob Healy and Holly Hinkel will take over positions as co-editors-in-chief on the staff of the Bishop Montgomery High School yearbook, the Excalibur, for the next school year.

The new co-editors formally took over their new responsibilities at the first annual publications banquet at the Marineland of the Pacific Restaurant May 28.

The year 1961 has ushered in several beginnings for the fairly new school in Torrance. The first issue of the Excalibur was given to purchasers on June 2.

Holly Hinkel, new to the school's student body maintains an A-average in her studies, as does Bob. The past year she has been an active member of the school's Sodality, Pep Club, Latin Club, and G.A.A. Bob is former news editor of the school newspaper, the Knight Life, a member of Quill and Scroll, a national journalism honor society, and a participant in the Los Angeles Examiner's prep sports reporting network.

Both look forward to a very active senior year.
